Dusty Blue DREAM Paper Letters

Paper: 5 A4 or Letter sheets of 180-220 gsm cardstock, one letter per sheet. The fixed English lettering spells DREAM; letter height varies with the glyph.

Materials: Cardstock in the size below; Scissors; a craft knife and cutting mat for enclosed letter holes; Ruler; Small removable adhesive tabs suitable for your display surface

Construction diagrams use the exact printable shapes. The cover is an AI finished-project visualization; the actual printable shapes, dimensions and hole positions govern the project. Not physically assembled by this site.

Print at 100% / Actual size, with Fit to page disabled. Check the 100 mm bar. Use white cardstock for color pages, or light-colored cardstock for outline pages. For dark palettes, use the color version on white cardstock. Print only the version and pages needed.

Illustrated section 1

Print the 5 color pages on white cardstock, or their outline equivalents on light-colored cardstock. Print only the letters needed for DREAM, at 100% / Actual size.

Illustrated section 2

Cut around each letter’s outer contour. Remove enclosed white spaces in letters such as O, R or D. Leave the surrounding page titles and scale bars out of the finished piece.

Illustrated section 3

Turn each letter over and apply small removable adhesive tabs to broad solid areas. The diagram marks example positions; adapt them to each glyph and keep tabs off open holes.

Illustrated section 4

Arrange the letters in the exact order DREAM. Use a ruler or temporary guide to align them, then press each flat paper letter onto the chosen wall or display board.
